

## GREAT LAKES REGION

# YOUTH SEX OFFENSE REGISTRATION LAW(S) TRAINING

Youth registration changed exponentially in 2007, following the passage of the Federal Adam Walsh Act and the promise of Byrne Grant funding for states that passed substantially-compliant legislation in their own jurisdictions. Since then, challenges to the law and its applicability to children have drastically changed whether and how it is applied to youth. This two-day training session will detail the juvenile sex offender registration requirements for the states that make up the Great Lakes Region of the Gault Center.

**THIS TRAINING IS FREE AND OPEN TO
